RE: PRICE INCREASE

Dear Valued customer,

Price Increase Notification – 2nd May 2022

Due to a price increase on raw materials and international shipping once again the manufacturers have informed Underground Civil Supplies that they will all be having a price increase on the 2nd of May 2022. As a result our selling prices will increase on the following products effective 2nd of May 2022.

- All PVC Electrical/Communications and NBN conduits will increase by up to 13%
- All PVC pressure pipes will increase by up to 13%
- All PVC Non- Pressure Pipes and fittings will increase by up to 13%.
- All PE100 pipe products will increase by 17%
- All PVC PVC Electrical/Communications and NBN bends & fittings will increase by 13%

The price rise will apply to all orders and deliveries made on or after the 29th of April 2022.

We also advise that we are unable to roll over any contract prices or existing quotes therefore we suggest that if you can store PVC conduits do purchase these and have them delivered prior to the 29th April 2022 to avoid this increase.

Our capability to supply all pipe requirements for April 2022 is limited due to high demand and shortages of raw materials. We will endeavour to confirm our ability to supply at time of order placement but the price rise will apply to all orders and deliveries made on or after 2nd May 2022.

We regret having to pass on these increases and thank you for your valued ongoing support.

Kind Regards

Paul Smith
General Manager
Underground Civil Supplies
